YOUR FUTURE STARTS HERE.

REALISE YOUR POTENTIAL KUBOTA DEALER APPRENTICESHIP

Earn while
you learn

Industry approved
qualification

Hands-on practical
skills and theory

Industry-leading
training

INDUSTRY APPROVED QUALIFICATION

By completing a Kubota apprenticeship, an apprentice will achieve an industry-approved City and Guilds qualification while gaining hands-on practical skills through a manufacturer-backed scheme. Following each course continual technical training will be delivered at Kubota's industry leading training centre.

EARN WHILE YOU LEARN

Students have the opportunity to 'earn while they learn' during their apprenticeship, with a course that includes both practical and theory delivered by Kubota's factory-trained product experts, working with the latest technology, machinery and IT systems within industry-standard facilities.

INDUSTRY - LEADING TRAINING

Each course provides Kubota-led technical training at Kubota's dedicated training facility - Kubota University, and block release at Reaseheath College, Nantwich where apprentices will train in purpose-built facilities with the latest digital, information technology, and diagnostic equipment. Additional training and course visits are provided parts logistics partner Unipart (dependent upon the course). **Contact us to find out more.**
